## ... says Tokyo

Translating the symbols, the Tokyo telephone operator says, "The connection is made—go ahead, please." Meaning that now you can talk to Japan from any telephone in the Bell System.

Interestingly, Japanese was the first foreign language ever transmitted by telephone—when in the winter of 1876-77 three Japanese students at Harvard paid a visit to Alexander Graham Bell in Boston. These three men have lived to see the day when they can talk with Boston from their homeland!

Seeking to put the whole world on such easy speaking terms, Bell System service now enables you to be connected with more than 93% of the world's 33,000,000 telephones.

Why not drop in at home tonight — by telephone? For a lot of pleasure at bargain rates, call by number after 8:30 P. M.

## BELL TELEPHONE SYSTEM
